Boiler Data Sheet

Your Company Name (Required at Inquiry)	
Company Address	
Company Phone	
Contact name phone/e-mail	
Engineer/Facility Manager & phone, e-mail	
Type of Boiler, Make & Model:	
Manufacturer:	
Boiler Location	
Boiler Information (Required at Inquiry)	
Fuel type	
Oil Consumption Rate (gph or gpm)	Maximum and Minimum
Annual Consumption (Gallons)	
Fuel Temperature requirement	
Existing Lift Pump and Pressure Delivered	
Nozzle pressure required and source of pressure	
Delivery inlet flow (maximum gph or gpm)	
Modulated flow, Hi/Lo, or fixed flow	
Purge time (From signal to ignition)	
Return pressure	
Return flow (gph or gpm at maximum flow)	
Fuel Pipe size	
Return Pipe Size	
Recent Performance Data (If available)	
Recorded Efficiency	
Oxygen (O2)	
Carbon dioxide (CO2)	
Exhaust gas temperature	
Type of atomization	
Size and location of filters/strainers	
Draft	
Supplied combustion air temperature	
Nitrogen dioxide NOx	
Utilities Available	
Water source & pressure available	
Power available (110, 240)	
Space Limitations	
Other Information	
Typical duration of boiler/engine operation	
Type of Controls	
Boiler start/stop signal	
Is Manufacture Information Available?	
Do you switch fuels during the year?	
What months of the year is it operated?	
When operated, is it 24/7? When?
